

# 5 ADVANTAGES OF SMART CONTRACT DEVELOPMENT

## 1 TRANSPARENCY

The participants have the same information at the same time, which minimises possible manipulation of the clauses of the contract.

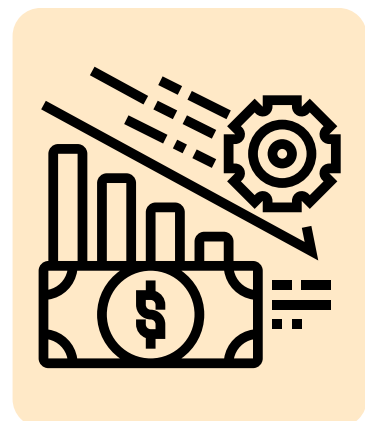

## 2 AUTONOMY

The participants have the same information at the same time, which minimises possible manipulation of the clauses of the contract.

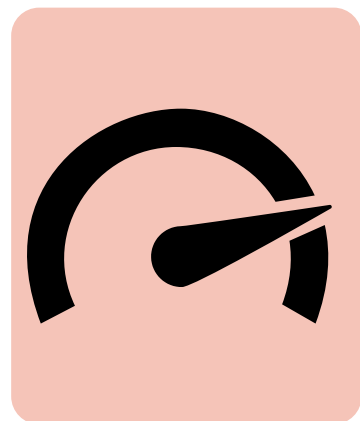

## 3 COST REDUCTION

This advantage is also linked to the elimination of intermediaries. By not having to rely on a third party to verify the terms of the contract.

## 4 SPEED

The absence of intermediaries reduces the economic cost as well as the time cost. As it is done automatically, the time invested.

## 5 AUTOMATIC UPDATES

the terms of the contract are automatically adjusted and updated, thus dispensing not only with the presence of intermediaries
